Office Action Summary

DETAILED ACTION

1.) Claim 22 is rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 22 depends from itself, making it unclear what subject matter the claim is directed to.

2.) The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3.) Claims 7 and 9-11 are rejected under 35 U.S.C. § 102(b) as being anticipated by either one of the Japanese document no. 60-130483 or the German document no. 2554990. Either one of the Japanese document no. 60-130483 or the German document no. 2554990 disclose a resistance welding electrode with the features claimed.

4.) Claims 8 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5.) Claims 1-6 and 13-21 are allowable over the prior art of record.

6.) Claim 22 would be given favorable consideration if suitably amended to overcome the rejection under 35USC112 set forth in paragraph 1 above.
